

## 2 BEDROOM / 1 BATH

# Auli'i

This inspired little home captures the essence of its Hawaiian name. 'Auli'i means "dainty, cute, just right;" and that's just what this home is. It features a single bathroom between two large bedrooms, a spacious living/dining area and comfortable kitchen. This is one of our most popular designs.

### Ikaika ("strong") I-Joist Make a Stronger House

**IKAIKA** JOIST  
LAM  
RIM  
Build stronger with Engineered Wood

If you're building post & pier or a two story home, ask your HPM Home Design Consultant about Ikaika Engineered Wood Products. The Ikaika I-Joist are made exclusively for HPM by the nation's leading manufacturer of Engineered Wood. Ikaika I-Joist span further (so you don't have to use as many piers), are lighter (so they're easier to work with), and are stronger and more durable than traditional timbers (so your floors won't squeak).
