Kamole

Kamole means "the source." This is a house you'll definitely want to come home to. Its unique design places the master bedroom in a separate wing of the house with its own small lanai. Mom and dad can have their privacy or the bedroom can serve as an 'ohana unit or rental. The main part of the house features two bedrooms, one bathroom, a full kitchen and a generous amount of living/dining space with its own lanai.
