

3 BEDROOM / 2 ½ BATH

Pua Melia

Like its namesake (the plumeria), the Pua Melia is an appealing, long-time favorite. Three bedrooms, two and a half baths, and a laundry room right next to the kitchen make it an extremely functional home. The large living room is great for family gatherings as well. A great starter home or rental.

Metal Roofing Isn't Your Tutu's Corrugated Roof Anymore

Ever wonder why you see so much metal roofing on homes on the Big Island? It's because metal roofing has traditionally been, and continues to be the most resilient and cost effective material for our environment.

But metal roofing is no longer just your traditional corrugated metal. It's available in over 12 different "profiles" (ridge patterns), in 14 standard colors, and can be made from a variety of different metals. The Durapon 70® paint system, which is now used on all HPM metal roofing, comes with a 35-year coating warranty and its formula includes Teflon™ which makes an even more durable roof.

HPM's Custom Metal Roofing is also EnergyStar rated and can qualify for LEEDs points and tax incentives.

Ask your HPM Home Design Consultant for information about HPM's Custom Metal Roofing options.
