

## Manufacturer's Certification

A metal roofing product coated with a Dura Coat Products Inc. Durapon 70 with Teflon® coating:

- 1) Is appropriately pigmented and is specifically and primarily designed to reduce the heat gain of a dwelling unit when installed on the dwelling unit; and,
- 2) Will meet or exceed ENERGY STAR® program requirements for steep-slope roofs (as in effect at the time of installation).

In accordance with IRS Notice 2006-26. Furthermore, the roof coating is an "eligible building envelope component that qualified for the credit allowed under § 25C."

### Declaration Statement:

Under penalties of perjury, I declare that I have examined this certification statement, and to the best of my knowledge and belief the facts presented are true, correct and complete.

A handwritten signature in black ink, appearing to read "Kevin M. Ebert", is written over a horizontal line.
