

# SHUR-LOCK

## ARCHITECTURAL ROOFING PANEL

**Shur-Lock** is a premium structural standing-seam panel with the beauty and style of an architectural panel. Shur-Lock's excellent structural capabilities, its UL-580 Class 90 wind up-lift classification and attractive appearance make it equally well suited for both

commercial and residential applications. Single length panels can be provided for most applications. Panels can be specified with or without standard "striations" or stiffening ribs in the flat portion of the panel. Shur-Lock can be installed over solid decking or open framing.

1/2"

1-3/4"

12" and 16" (Standard)

Shur-Lock can be manufactured right at the jobsite. Other applications include mansards, facias and soffits.

## FEATURES

- 1 3/4" nominal rib height
- 12" & 16" Standard - Other widths available by special order
- Custom panel lengths
- Snap seam installation
- Zincalume aluminum-zinc coated steel available in 24 or 22 guage (special order)
- Aluminum alloys available in .032" standard or .040" (special order)
- Standard or custom Durapon 70 factory color finishes
- Special order copper in 16 or 20 ounce
- Custom panel face treatments (striations, stiffening ribs). Striations recommended to minimize oil canning
- Apply over decking or open framing
- On-site manufacturing
- UL 580 class 90 Wind Uplift rating
- ASTM E1592, E1646 & E1680 performance testing (with field applied seam sealant)

NOTE: PANEL WIDTH IS NOMINAL - VARIANCE +\ - 1/8"
