

TROPIC-LOCK

STANDING-SEAM ROOFING PANEL

Tropic-Lock is a concealed-fastened, interlocking architectural roofing panel designed for economy and ease of installation. Panels interlock securely and fasten to a solid substrate without the need for clips, yet allowing for thermal movement. Applications include commercial and residential roofing, mansards and fascia. It is suitable for roof slopes as low as 3:12. These panels can be manufactured at the jobsite to meet long-length requirements.

FEATURES

- 1" normal rib height
- 14" Standard - Other widths available by special order
- Custom panel lengths
- Snap seam installation (clip-less, non-mechanical)
- Zinalume coated steel available in 24 or 22 gauge (special order)
- Aluminum alloys available in .032" or .040" (special order)
- Standard or custom Durapon 70 factory color finishes
- Special order copper in 16 or 20 ounce
- Custom panel face treatments (striations, stiffening ribs). Striations recommended to minimize oil canning.
- Apply over solid decking
- On-site manufacturing
- ASTM E1592 performance tested

NOTE: PANEL WIDTH IS NOMINAL - VARIANCE $\pm 1/8"$
